Recommended by	Board of Directors	Approval date	18 th May 2026
Supersedes	Not Applicable	Next review	Annually

Applicable legal and regulatory framework

This Policy shall be read with the following principal requirements, each as amended, replaced, saved or brought into force from time to time:

- Occupational Safety, Health and Working Conditions Code, 2020 and applicable Central/State rules and notifications
- Environment (Protection) Act, 1986; Water Act, 1974; and Air Act, 1981
- Applicable waste-management, chemical, hazardous-substances, public-liability, fire-safety and disaster-management requirements
- Saved or transitional requirements under earlier labour enactments, to the extent legally continuing

STATUTORY OVERRIDE

If this Policy is inconsistent with a mandatory law, regulation, rule, circular, stock-exchange direction or judicial order, the mandatory requirement prevails. A more beneficial statutory employment benefit also prevails.

Policy provisions

Preamble

BKM Industries Limited (“BKM” or “the Company”) is committed to conducting its business operations in a manner that safeguards the environment and ensures the health, safety, welfare, and wellbeing of its employees, workers, contractors, visitors, and other stakeholders.

The Company recognizes that effective Environment, Health and Safety (“EHS”) management is an integral part of responsible corporate governance, operational excellence, legal compliance, and sustainable business growth.

Accordingly, this Policy has been adopted to establish the Company’s guiding principles and framework relating to occupational health, industrial safety, environmental protection, risk management, and statutory compliance across all its operations and business activities.

Objective

The objectives of this Policy are to:

provide and maintain, so far as reasonably practicable, a safe, secure, and healthy working environment for all persons associated with the Company;

prevent workplace accidents, occupational injuries, illnesses, unsafe conditions, and environmental incidents;

ensure compliance with applicable environmental, labour, occupational health, industrial safety, and other statutory requirements;

promote responsible utilization of natural resources and environmentally sustainable business practices;

establish systems for identification, assessment, mitigation, and monitoring of EHS risks arising from the Company’s operations;

promote awareness, accountability, consultation, and participation in EHS matters at all organizational levels; and

drive continual improvement in EHS performance through periodic review, monitoring, training, and implementation of appropriate control measures.

Applicability

This Policy shall apply to:

all directors, employees, workers, trainees, apprentices, interns, and retainers of the Company;

all contract labour, temporary personnel, consultants, vendors, contractors, transporters, and service providers engaged by or working on behalf of the Company; and

all manufacturing units, warehouses, engineering facilities, utility areas, offices, storage locations, logistics operations, and other premises owned, operated, leased, or controlled by the Company.

The provisions of this Policy shall extend to all operational, administrative, support, and ancillary activities undertaken by the Company.

This Policy shall be read in conjunction with the Company’s Code of Conduct, Anti-Harassment Policy, EHS Policy, POSH Policy, Whistleblower Policy, and other applicable internal policies and procedures.

Legal And Regulatory Compliance

The Company shall conduct its operations in compliance with all applicable laws, rules, regulations, notifications, standards, and statutory requirements relating to environment, health, safety, labour welfare, and industrial operations, including but not limited to:

- the Occupational Safety, Health and Working Conditions Code, 2020, applicable Central/State rules and saved or transitional factory-safety requirements;
- the Occupational Safety, Health and Working Conditions Code, 2020;
- the Environment (Protection) Act, 1986;
- the Water (Prevention and Control of Pollution) Act, 1974;
- the Air (Prevention and Control of Pollution) Act, 1981;
- the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016;
- applicable fire safety regulations, municipal requirements, and pollution control norms; and
- such other laws and regulatory requirements as may be applicable from time to time.

The Company shall obtain, maintain, and renew all licenses, approvals, registrations, consents, permits, and authorizations necessary for its operations under applicable law.

Policy Commitments

Occupational Health and Safety

The Company shall take all reasonably practicable measures to ensure a safe and healthy workplace and to prevent incidents resulting in injury, ill-health, loss of life, or damage to property.

To achieve this, and without limiting our overall commitment, the Company will focus on the following key areas:

- establish and maintain safe systems, procedures, and methods of work;
- identify workplace hazards and implement suitable risk control measures;
- ensure safe installation, operation, inspection, and maintenance of plant, machinery, tools, utilities, and equipment;
- provide suitable Personal Protective Equipment (“PPE”) wherever required;
- maintain appropriate emergency preparedness and response mechanisms;
- investigate accidents, incidents, near misses, and unsafe conditions and implement corrective and preventive actions;
- promote safe behaviour and accountability across all levels of the organization.

No employee or worker shall be required or permitted to perform work under conditions that present unreasonable or avoidable risk to health or safety.

Health, Hygiene and Welfare

The Company shall endeavour to provide and maintain appropriate welfare, sanitation, hygiene, and occupational health facilities in accordance with applicable legal requirements and industry standards.

The Company shall, wherever applicable:

provide access to safe drinking water, sanitation, ventilation, illumination, and housekeeping;

maintain first-aid facilities and emergency medical arrangements;

conduct occupational health monitoring and medical examinations as may be prescribed or considered necessary;

promote employee wellbeing, workplace dignity, and mental health awareness; and

take reasonable measures to prevent occupational exposure to unsafe or unhealthy conditions.

Environmental Protection and Sustainability

The Company is committed to minimizing the environmental impact of its operations and conducting business in an environmentally responsible manner.

Accordingly, the Company shall endeavour to:

prevent and control pollution arising from its operations;

reduce generation of waste and promote reuse and recycling practices;

ensure environmentally sound handling, storage, transportation, and disposal of hazardous materials and waste;

optimize consumption of electricity, water, fuel, and other natural resources;

reduce emissions, noise, and environmental footprint to the extent reasonably practicable;

encourage adoption of sustainable technologies and environmentally responsible operational practices.

Environmental considerations shall form part of operational planning, procurement, maintenance, logistics, and decision-making processes.

Risk Management and Incident Prevention

The Company shall establish suitable systems and processes for identification, assessment, monitoring, and mitigation of EHS-related risks associated with its operations.

Such systems may include:

safety inspections and compliance audits;

hazard identification and risk assessments;

permit-to-work systems;

preventive and predictive maintenance practices;

contractor safety management;

fire prevention and emergency response planning;

incident reporting and investigation mechanisms.

Appropriate corrective and preventive actions shall be implemented within reasonable timelines wherever deficiencies or non-compliances are identified.

Training, Awareness and Consultation

The Company recognizes that effective implementation of this Policy requires active participation, awareness, and accountability at all levels.

Accordingly, the Company shall endeavour to:

provide appropriate EHS induction and periodic refresher training;

conduct awareness programmes, toolbox talks, and emergency drills;

communicate applicable EHS procedures, responsibilities, and precautions;

encourage reporting of unsafe conditions, incidents, and improvement opportunities;

promote consultation and participation of employees and workers in EHS initiatives.

Employees, contractors, and other personnel covered under this Policy shall comply with applicable EHS procedures, instructions, and safety requirements issued by the Company from time to time.

This Policy shall be read in conjunction with the Company's Code of Conduct, Anti-Harassment Policy, EHS Policy, POSH Policy, Whistleblower Policy, and other applicable internal policies and procedures.

Contractor, Vendor and Visitor Compliance

All contractors, vendors, transporters, consultants, and visitors entering Company premises or undertaking work on behalf of the Company shall comply with applicable EHS requirements, site rules, and statutory obligations.

The Company reserves the right to suspend work, deny entry, or take appropriate action in the event of non-compliance with applicable safety or environmental requirements.

Roles And Responsibilities

Board and Senior Management

The Board of Directors and senior management of the Company shall provide oversight, strategic direction, and support for effective implementation of this Policy.

Functional and Departmental Heads

Department heads, plant heads, managers, and supervisors shall be responsible for:

implementation of applicable EHS requirements within their respective areas;

ensuring availability of appropriate resources and controls;

monitoring compliance and reporting incidents or deficiencies;

promoting EHS awareness and safe work practices.

Employees and Workers

Every employee, worker, and person covered under this Policy shall:

comply with applicable EHS procedures and instructions;

use PPE and safety equipment responsibly;

immediately report accidents, incidents, unsafe acts, or unsafe conditions;

cooperate during inspections, audits, investigations, and emergency situations.

Failure to comply with EHS requirements may result in disciplinary action in accordance with applicable Company policies and law.

Monitoring And Review

The Company may periodically review, audit, and assess the effectiveness of its EHS systems, procedures, and performance indicators to ensure continual improvement and compliance with applicable requirements.

Necessary corrective, preventive, or improvement measures shall be implemented based on such reviews.

Policy Review And Amendment

This Policy shall be reviewed periodically and may be amended, modified, or revised by the Board of Directors or any committee/person authorized by the Board, as may be deemed necessary to ensure alignment with applicable laws, regulatory requirements, operational needs, and industry practices.

Governance, monitoring and records

- Policy owner: Head – EHS. The owner shall maintain procedures, registers, evidence and training appropriate to the control risks.
- Functional heads must escalate suspected breaches promptly and cooperate with reviews or investigations.
- Records must be accurate, access-controlled and retained for the longer of the statutory period, an applicable legal hold and the Company's Preservation Policy.
- A person who raises a concern in good faith is protected from retaliation, subject to the Company's whistleblower framework.

Review, approval and controlled disclosure

This Policy shall be reviewed annually and earlier on a material legal, regulatory, operational or organisational change. Amendments require approval by the Board of Directors unless a law permits a delegated, non-substantive update.

This is an internal controlled document. External disclosure is permitted only where required by law or specifically authorised through the Company's disclosure controls.
